- » I need help installing and configuring our new firewall
- » We are using IP telephony and need our switches re-configured

Support Assist

- » My senior engineer is away on leave
- » I need help solving a Windows server issue
- » My desktop engineer has just resigned and it may take me 6 weeks for a replacement – Help!!
- » I need help with managing Outlook signatures
- » How do I implement a Standard Operating Environment?
- » I need pro-active server monitoring – making sure all systems are healthy
- » I need backup monitoring and disaster recovery testing
- » I need patch management

Product Selection & Consulting

- » Storage(SAN), iSCSi or Fibre, SAS or SATA?
- » Which Hypervisor? VMware, Microsoft or Xen?
- » Licensing review: What Microsoft Licenses do I need and what are the best licensing options?
- » Server selection: What specifications do I need for my virtualisation project?
- » Which networking monitoring tool is best for my environment?
- » How do I secure my network?
- » How do I centralise my data?
- » How do I best give access to our new ERP software to all local and remote users?
- » What data links should I use? Private WAN, IPSEC, wireless, fibre, EOC, BDSL or ADSL??
- » What product do I use for mail archiving?
- » What type of switches do I need?
- » How about Cloud?
