

Software & Collaboration

Collaboration leads to innovation. Software is the driving force behind a business' operations. It is the glue that brings everything together and allows your employees to focus on getting the job done effectively.

The right software applications act as a tool for your business to achieve its goals.

Utilizing the Microsoft suite of collaboration and productivity applications, alltasksIT will analyse your business processes and work with you to help bring out the efficiencies in your organisation – from office collaboration and document sharing to improving your company's online presence via WordPress web development.

Talk to us today about on premise or Cloud SharePoint or LYNC. Go ahead and get started!

Collaborate with LYNC

The traditional PABX phone system is a thing of the past. Using Microsoft LYNC, businesses can now collaborate like never before. LYNC replaces or complements your phone system, but adds so much more. LYNC is the enterprise ready unified communications platform for your business. Let alltasksIT show you the benefits of this product.

Web Development

alltasksIT take a "keep it simple" approach to web development. Using a WordPress framework, we can help you to design, create and implement a new functional website for your business.

SharePoint Solutions

SharePoint has revolutionised the way businesses share information and collaborate. Via process automation, SharePoint can change how your business interacts from the top level down. Imagine one central place for your employees to learn, interact and share – alltasksIT can show you how SharePoint makes this possible.

What is Big Data?

Big Data is all about getting the most out of your information. Leverage your customer database using analytics to increase sales, improve service delivery and to implement new go-to market strategies. Talk to alltasksIT about finding out what your customers want.
